GROUNDCOVER

Ajuga - Burgundy Glow

(also good for Groundcover)

The Ajuga 'Burgundy Glow', is a useful ground cover with short spikes of blue flowers. It is relatively carefree. Can be invasive. Does best in a shaded area but will adapt to morning sun. (The foliage colors will be more vivid with morning sun.) It will tolerate moderately dry areas. Avoid soggy conditions. It looks great in rock gardens, as a border plants, in mass plantings and is great for preventing erosion. Butterflies and hummingbirds are defiantly attracted to Ajuga, not to mention being deer resistant and a low allergen. If one is looking for a perennial ground cover to exceed in a hard to grow shady area, Ajuga is the way to go.

| | |
|-------------------------|--|
| Mature Height | 6 inches, 6 inch spikes |
| Mature Spread | 12 – 18 inches, plant 6-9 in apart for groundcover |
| Soil Type | Normal - Sandy |
| Moisture | Moist, well-drained |
| Mature Form | Low Spreading |
| Growth Rate | Fast |
| Sun Exposure | Partial Sun |
| Flower Color | Bluish Purple |
| Fall Color | Silver, Green, White Rich bronze, Burgandy |
| Foliage Color | Silver, Green, White |
| Flowering Period | Late Spring - Early Summer |
| Zones | 3 thru 9 |

Ajuga- Metal Crispa

The Ajuga 'Metal. Crispa', *Ajuga pyramidalis*, is a useful ground cover with short spikes of cobalt blue flowers and tight, crisp-leafed crinkled purple foliage with a green-brown shine. Foliage colors will be more vivid with morning sun. Best grown in rocky areas or with other smaller plants, under trees or in poor soils. 'Metal. Don't place it near lawns or borders without proper edging to prevent spread. Butterflies and hummingbirds are attracted to it. Deer resistant and a low allergen.

| | |
|-------------------------|--|
| Mature Height | 8 inches, 6 inch spikes |
| Mature Spread | 12 – 24 inches, plant 6-9 in apart for groundcover |
| Soil Type | Normal - Sandy |
| Moisture | Moist, well-drained |
| Mature Form | Low Spreading |
| Growth Rate | Fast |
| Sun Exposure | Partial Sun |
| Flower Color | Blue-Violet |
| Fall Color | Rich Bronze |
| Foliage Color | Rich Bronze |
| Flowering Period | Early Spring |
| Zones | 3 thru 9 |

Bishops Weed-Variiegated

This weedy fast-growing groundcover tolerates shady or moist places and soil too poor for other plants. A Low Maintenance plant used as edging or ground cover near buildings or where contained by concrete or wooden barriers; their creeping rootstocks can become invasive. Can be pruned to keep height low. Its white-margined leaves are irregularly variegated. Remove plants that change to solid green leaves.

| | |
|-------------------------|-----------------------|
| Mature Height | 6-12 inches |
| Mature Spread | 10 feet |
| Soil Type | Acidic, Wet |
| Moisture | Moist |
| Mature Form | Fast Spreading |
| Growth Rate | Fast, Creeping |
| Sun Exposure | Full Sun – Full Shade |
| Flower Color | White – Yellow |
| Foliage Color | Green – White |
| Flowering Period | Early Summer |
| Zones | 4 thru 9 |

Coral Bells – Palace Purple

(also good Perennial)

The Heuchera 'Palace Purple', also known as Coral Bell, is one of the most popular Coral Bells on the market and was named Perennial of the Year in 1991. Unique deep purple foliage, fades to bronzy green in hot summers and its dark red stems and blooms small pinkish and white flowers in spring that last into the summer. Especially good as a border, near variegated plants, woodland edges, rock gardens, perennial borders, or in mass to form an attractive ground cover.

| | |
|-------------------------|--------------------------|
| Mature Height | 10 inches |
| Mature Spread | 12 – 18 inches |
| Soil Type | Normal, Sandy, Clay |
| Moisture | Moist/wet , Well-Drained |
| Mature Form | Mounding |
| Growth Rate | Moderate |
| Sun Exposure | Full Sun to Part Shade |
| Flower Color | White |
| Fall Color | Red-Wine, Purple |
| Foliage Color | Red-Wine, Green |
| Flowering Period | Spring – Early Summer |
| Zones | 3 thru 9 |

Thymus - Woolly Thyme

Woolly Thyme is a unique tightly knit groundcover that has a soft silvery appearance, making it a great filler between pavers and along borders. It rarely flowers which makes it a great choice for those allergic to bees. It is a slow-growing plant that requires even watering in order to maintain it's full appearance. Poorly drained soils will make it more susceptible to root rot.

| | |
|------------------------|---|
| Mature Height | 3 inches |
| Soil Type | Well Drained, even watering, drought tolerant |
| Moisture | Requires even watering, drought tolerant |
| Characteristics | Tiny grayish, fuzzy leaves, low-maintenance can tolerate occasional walking |
| Growth Rate | Slow, moderate spread |
| Sun Exposure | Full Sun |
| Flower Color | Rare - Pink |
| Foliage Color | Silvery Evergreen |
| Zones | 4 thru 9 |
